Cost Impact in \$

Double-glazing vs triple-glazing on west facade

Pending

B I U <> H1 H2

NOTES: Triple glazing contains three panes of glass within a sealed frame, just as double glazing contains two. Between each pane is a pocket of air or inert gas, such as argon; argon is heavier than air and works as an insulator for both noise and heat.

- Glazers, Inc. to provide pricing
- Glazers, Inc. to send product data
- Architect to confirm product is acceptable
- Owner to confirm schedule increase is acceptable

SPECIFICATIONS: www.thermosealgroup.com/warm-edge-technology/triple-glazing

MATERIAL LEAD TIME FOR DOUBLE-GLAZING IS +2 WEEKS MORE THAN TRIPLE GLAZING

> Cost Impact +\$46,699

> Schedule Impact +10 work days critical path: yes
